

Lumberjack Enterprises produces high quality family entertainment for fairs, festivals, schools, and corporations throughout the entire United States for one or more days. Typical venues not only get the professional Lumberjack Shows, but they also get the Kid's Interactive Lumberjack Camps and Chainsaw Carving. We carry 3 million dollars in general liability insurance and can add additional insured to whomever. All lumberjack equipment, safety apparel, event stands, wood, professional lumberjacks, portable pool, PA system, saws, etc are included. We do 100% of the set up, take down, and clean up of our own area. Our goal is to make this as easy as possible for you so we have included just about everything! We only require a few simple items...water for our logrolling tank, electricity for the sound system and a minimum area of 50' by 75' to set up in. Guest seating is highly recommended.

All American Lumberjack Show: This fast paced family friendly show is designed to be run multiple times per day. With 11 lumberjack events offered, each show is different as the events are rotated throughout the day. Typical shows are 30 minutes in length but can be tailored for your needs. If only one show is needed, then a longer 1 hour show can be run with all of our events. See the grandstand section for our largest show.

Kid's Interactive Lumberjack Camps: These events are for the audience members to try. They are designed for the first-timer with logrolling and cross cut sawing being our two most popular events. Professional lumberjacks are on hand at each event to help the audience members. Kids and parents can try the events as many times as they like within the camp time. Camps are best run immediately after a lumberjack show and are free to our guests. (Typically 30 min in length.)

Chainsaw Carving: Watch as lumberjacks turn blocks of wood into works of art. Carving takes place in-between the Lumberjack Shows and Kid's Interactive Lumberjack Camps. The carvers work their chainsaw to make small bears, fish, turtles, cactus, etc. Each carving is then offered for sale.

Grandstand Event: This is our largest standard event for fairs looking to have an evening grandstand event. We include all of our lumberjack events in this show plus an additional 2 lumberjacks and 2 competitor stations. Each event is single elimination that typically holds 3 heats of competition for each event. The crowd favorite "Relay Event" is also showcased in this show. An intermission can be added if needed/wanted.
